2020-21

ACKNOWLEDGEMENT

We take this opportunity with pride and enormous gratitude, to express the deeply embedded feeling and gratefulness to our respectable guide **Mr. Vinay Kumar,** Department of Computer Science and Engineering. Whose guidance was unforgettable and innovative ideas as well as his constructive suggestions has made the presentation of my thesis a grand success.

We are thankful to **Dr. T. Adilakshmi,** Head of Department (CSE), **Vasavi College of Engineering** for their help during our course work.

Finally at last but not least express our heart full thanks to the management of our college, **Vasavi College of Engineering** for providing the necessary arrangements and support to complete my seminar work successively.

We convey our heartful thanks to our external guide **Mr. Sampath sir** who has helped us throughout our project work.

APP TITLE AND DESCRIPTION

The title of this project is “Online Motor Services”. It is a servicing website for cars. The website works independently. It has many services like vehicle repairs, breaks service, car wash, breakdown assistance, engine oil exchange, clutch and gear work, wind shield replacement and etc. This service promises to bring speedy assistance to customers when in need. It aims to provide service to the customers with shortest turnaround time (90 mins) for scheduled services & minor repairs of their vehicles. Reducing waiting period for getting appointments for schedule service of the vehicle. Ensuring quick, timely & same day delivery of your vehicle.
